

Bio-data of Nominee

Name : Eugene Khoo

IC No : S2578109J

Nationality : Singaporean

Date of Birth : 3 Oct 1965

Age : 46

**Eugene Khoo** is a port-engineering specialist with over 20 years of intimate experience in planning, design, construction and project management of the mega container terminal of 36 Mil TEUs capacity at Pasir Panjang Phases 1 to 4 in Singapore. He is currently the Assistant Director (Port Projects) responsible for the implementation of Phase 1 of Tuas Port Development in Singapore.

Since 1989, Eugene has intimate knowledge and experience in port planning and design of port structures working in the Port of Singapore Authority and from 1997 up till 1999, he continued working in its successor corporatized commercial organization, PSA Corporation Ltd. From 2005 to 2009, he was an engineering consultant with Surbana International Consultants, supervising of the construction works for the reclamation of Pasir Panjang Phases 3 and 4.

As the Planning and Design Manager of PSA Corporation's engineering management team, Eugene had oversight of the due diligence studies for technical feasibility of overseas port investment projects in India, Malta, Korea and Indonesia. He has worked intimately on the planning and design of the container terminals at Gujarat Pipavav Port and Tuticorin Port in India.

He is a Chartered Engineer (UK) and a registered Professional Engineer in Singapore and Malaysia and has been involved in planning and design of port and maritime structures in Singapore, Indonesia and India.
